1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 3, on line 1 before the coma after "recorder" the following has been inserted: --according to claim 1--.

This corrects an obvious omission.

2. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

The clause regarding "willful false statements ..." required by 37 CFR 1.68 has been omitted.

3. The following is an examiner's statement of reasons for allowance:

Concerning claim 4, the recitation of the "elastic body for generating a preload force which is directed at a predetermined angle from the shaft on the inner races of the bearings" is read in light of the specification and drawings to be a body located between the upper and lower bearings which acts on the inner races of each bearing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
